## **Agency Commission:**

The Journals Division offers a 2.5% commission to subscription agents on the subscription rate. There is no commission on postage. Orders must clearly state the title, start volume/issue, the version, the level of access, and complete end-user data. The commission is forfeited where this data is missing. The Press encourages automated submission of orders and claims from subscription agents and offers a higher commission to those agencies that qualify. If your agency wishes to qualify for the higher commission, you must reach out to request approval. Orders submitted at a commission higher than 2.5% where approval was not sought or was denied will be billed for the balances. **To request approval for a commission higher than 2.5%, or for a commission increase from 2021, please contact us at [subscriptions@press.uchicago.edu](mailto:subscriptions@press.uchicago.edu). We will review your request and notify you of our decision in due course.**

## **Order Submissions:**

Order submissions should always include the full journal title, version (PO, PE, EO), tier level (if electronic), and the requested start volume and issue number. **All** subscription orders, including subscriptions delivered to a consolidation center, must include a complete postal mailing address of the **end-user**. Librarian contact information, including name and email address, is required for order processing and the resolution of customer service claims.

## **Pricing and Formats:**

All 2022 prices are for one-year except where noted. Partial year subscriptions are not accepted without prior approval from the Press. Institutional subscriptions are available in three formats: Electronic Only (EO), Print + Electronic (PE), and Print-Only (PO). Please refer to the 2022 rates for the available subscription options for each journal. Note that some titles do not include a PO rate.

Chicago's tiered pricing structure takes research output as the key criterion and is based on the Carnegie Classification system in the United States and comparable classification systems in other countries. In cases where a subscription includes access to multiple locations, covers distance learning programs, or in other circumstances, Chicago may impose a surcharge.

To check the classification of an institutional subscriber, please contact [subscriptions@press.uchicago.edu](mailto:subscriptions@press.uchicago.edu). Note that orders submitted at incorrect rates will be billed for the difference.
